Room 101

Room 101 is the most terrible weapon in The Party's arsenal it is used to break down every last bit of humanity inside of a person, it brings out their most primal fears and reduces them to an obedient and submissive shell of a person. The terror Winston faces in there erases every last trace of good inside him causes Winston to betray the person he cares the most about. The extent The Party is willing to go to exterminate personal connections and really humanity as a whole truly shows how badly power corrupts.

Principles Of Ingsoc

Ingsoc (English Socialism) is the ideology of "The Party" and it is founded on three principles

- **War is Peace :** By maintaining a perpetual state of war it keeps the public united against one singular external enemy and additionally prevents economic prosperity which could lead to desire for political freedom
- **Freedom is Slavery:** Individual freedom leads to societal ruin, citizens are far better suited living directly under the thumb of the party. If society were to have freedom the reign of "The Party" could never exist.
- **Ignorance is Strength:** By giving up your right to think for yourself you are displaying your faith in the wise decisions of "The Party" as opposed to your own feeble mind. For if the people were truly educated the party would not be able to suppress the truth any longer.
